Opinions of the Editors

In my opinion, a better future will be when there will be no discrimination at work between women and men and when there will be gender equality in politics. Only 23% of the world's politicians are women. I dream of a better world when there will be no country in a difficult situation, and there will be good water and food for all the people in the world.

(Louise)

I have a dream that all men and women will be equal. I have a dream that there won't be any discrimination in the world. **(Marie)**

To meet is a beginning, to stay together is progress, to work together is success. Success is linked to patience but it also depends on a lot of good will.

Everybody, hands in the hands can achieve great things. **(Florian)**

I dream of liberty for both women and men and I hope racism will come to an end. **(Laura)**

For a better future, it is necessary that all men feel equal and that there will be no difference of treatment no matter your racial origin. **(Djarwis)**

For a better future we have to reduce pollution, if we don't try our best to give our children a better

future, we are not being responsible. I believe that we can eat more naturally, I believe that everybody can be an eco-citizen, I believe that our children can live a healthier life.

(Attilas)

I have a dream that there will be war no more in the world. **(Maxence)**

I have a dream that there will be no racism and sexism. **(Juliette)**

I hope that one day black people and white people will be equal and will have the same rights. I hope that there will be no more racism.

(Antony)

The world will be better if we make peace. The world will be better when women will be equal to men. The world won't be any better if there is still war. Our world will be better when all people give generously and help others. **(Benjamin)**

I have a dream, that my children will be able to embrace the world and travel anywhere on the planet.

I wish differences between people will be accepted and that no one will be discriminated against. I

have a dream, that all people will be happy and will love life. I hope everyone will love each other, brothers or sisters, on the planet.

I wonder if you can
 No need for greed or hunger
 A brotherhood of man
 Imagine all the people
 Sharing all the world... You...

You may say I'm a dreamer
 But I'm not the only one
 I hope someday you'll join us
 And the world will live as one

John Lennon
